GC4200 Gun Clearing trap for safe loading and unloading

When safety does matter

The GC 4200 Gun clearing trap is designed and built for safe loading and unloading any gun and rifle up to 4200J.

The weight is 12 kgs and the overall dimensions as installed at the pictures are 350 x 350 x 175 mm

Weapon (example)	Cartridge	Caliber	Bullet type
		.22 lr	L/RN
		.22 lr 9mm Luger .45 Auto	FMJ/RN/SC (tinned)
		.22 lr .375 Mag. .44 Rem. Mag.	FMJ/FMJ*/CB/ FN/SC
		7,62 x 39	FMJ/PB/FeC*
		.233 Rem. (5,56 x 45)	FMJ/PB/SCP*
		.308 Win (7,62 x 51)	FMJ/PB/SC
		7,62 x 54 R	FMJ/PB

Bullet types:

FMJ = Full Metal Jacket (FC steel)	L = Lead
FMJ* = Full Metal Jacket (FC copper)	RN = Round Nose
SC = Lead Soft Core	FN = Flat Nose
PB = Parabellum	CB = Cast Bullet
SCP = Soft Core with steel penetrator	FeC = Iron Core

*SCP bullets will be stopped safe, but check bullettrap after each shot and replace damaged parts!

The GC 4200 can be installed at the wall as well as at a desk.

If an accidental shot occurs, the flames is diverted away from the shooter.
